Rheumatic Acid  
Poisoning  
The Uric-O Treatment Expels  
the Poison from the Blood

These sharp, shooting pains through the chest around the region of the heart mean that poisonous uric and rheumatic acid are there ready to spring and grip tightly the muscles controlling the heart's action. Don't neglect these warnings. You must neutralize and drive these dangerous poisons from the system, or sooner or later they will overcome you.

The only true way to cure Rheumatism is to get at it from the inside with Uric-O. It acts with marvelous swiftness upon the muscles, kidneys and blood. Cleans out the sand-like deposits in the muscles, forces the kidneys to perform those duties for which they were designed, and neutralizes the acid within the blood.

Uric-O is a liquid taken internally, 3 times daily, and does not contain any morphine, opium or other so-called "pain" poisons. Scientific Muscular, Inflammatory and Articular Rheumatism all yield readily to Uric-O.

Sold by N. D. Sevin & Son, Norwich, H. L. Burr, Putnam, Chas. DeVilliers, William, and J. W. Tuckerman, Monmouth, for \$2.00 the bottle, or you can obtain a trial bottle free by writing to The Smith Drug Co., 184 Smith Bldg., Syracuse, N. Y.

## WESTERLY DRUGGIST ARRESTED

Oliver E. Gavitt, Charged with Illegal Liquor Sale, Held in \$100 Bonds—Babcock & Wilcox Boiler Co. on the Defensive—Burial of Mrs. Samuel H. Cross—James Gilmore Dead at Stonington.

The Babcock & Wilcox company, of which William Hoxie of Westerly is vice president, and in which J. Howard Brown, also of Westerly, holds an important position, is in the limelight, by reason of charges of competitors alleging a boiler trust. This is the company of which the late Stephen Wilcox of Westerly was president, and inventor of the boiler that is in general use in naval vessels of all descriptions. Mr. Wilcox and the late Mrs. Wilcox endowed the Memorial and Public Library building and also Wilcox park for all time for the free use of the people of Westerly and vicinity and these monuments are as enduring as the granite memorial in River Bend cemetery.

The house committee on naval affairs recently caused adoption of a resolution calling for the estimated cost of installing a plant to construct steam boilers at the Brooklyn navy yard, or other suitable location. The secretary of the navy has made reply in general terms, and seemingly without attempting to furnish the detailed information apparently desired by the committee.

Further to complicate the situation, the vice president of the Heine Safety boiler company of St. Louis has made charges which have been laid before the naval committee by Representative Caulfield of Missouri. The St. Louis company alleges that the Babcock & Wilcox company and certain associates have obtained the insertion in the Congressional Record of a statement of provision which excludes competition by the majority of boiler manufacturers.

The Mosher boiler company of Pittsburg also has preferred similar charges which have been brought to the attention of the committee by Representative Capper of Kansas.

The reply of the secretary of the navy to the house resolution is based on a report of Chief Constructor Eugene A. Tamm, chief of the bureau of steam engineering. Constructor Capper says the plant in the Brooklyn navy yard is to make marine boilers with the exception of the Babcock & Wilcox and the Niclausse types but that their manufacture would require the installation of special machinery and appliances at a cost of upward of \$1,000,000.

He reports that the Babcock & Wilcox company is willing to furnish the machinery or the drawings therefor, but would charge a royalty for the use of their processes, which, with the other expenses, would bring the cost of manufacture by the government up to the price now paid that company, \$2.50 a square foot of water heating surface.

As there is considerable dissatisfaction among boiler makers who have been unable to obtain contracts from the navy department, it is probable that before the naval committee is re-organized and ready to take up this subject, there will be protests from others in addition to those already filed.

Three weeks ago, another raid, directed by Henry B. Agard, for the state, was made on the Martin Pharmacy. The police officers seized a quart bottle practically filled with whiskey. When the case against the liquor was called Oliver E. Gavitt appeared as claimant, and the case was tried, the object of the defendant being to establish the fact of the state and ascertain the nature of the testimony that was to follow, for the keeping for sale or actual sale of liquor. It appeared in this case, according to the state's witnesses, that the young liquor detective, Spencer and Rodman, the Ashaway, under the direction of Constable Foster, had purchased two half-pints of whiskey, on two different occasions, in the Martin pharmacy. After the hearing, which occupied the greater part of the court session, Judge Williams declared the liquor forfeited to the state and ordered its destruction.

Mr. Gavitt, in connection with this case, was arrested by the police.

case, was arrested by Police Sergeant Brown, Monday morning, and taken before Clerk Cundall of the Third district court, charged with the actual sale of liquor. He pleaded not guilty and furnished bonds of \$100 for his appearance at the regular session of the court next Friday.

Attorney A. T. J. Ledwidge, counsel for Mr. Gavitt, stated at a special meeting of the town council last Friday evening, when a liquor question was under consideration, that he had sworn testimony in his possession that he could produce at the proper time and place, to show that both Spencer and Rodman had perjured themselves, and that therefore their testimony was unreliable. So, under the conditions, there is likely to be sensation injected into the regular court session next Friday.

On last Labor day, Manager Sheedy took charge of the Bliven opera house under lease of one year with privilege of renewal. He has given to Westerly an exhibition daily of moving pictures and high class vaudeville, and, as three large audiences were the rule, it was presumed that the entertainment would continue until September 1, and that then there would be renewal of lease for continuation. It was not until the Saturday evening entertainment was in progress that the local manager received telephonic communication from Mr. Sheedy ordering the theater to be closed for the present. It is said that in order to get patronage expensive attractions were required, and at the low rates of admission, five and ten cents, it was a losing venture, and the people would not pay more, being encouraged in this mind by low-price opposition.

**Local Laconics.**  
Edward S. Brewer of Springfield, Mass., is visiting in Westerly.

William H. Doane of Cincinnati has arrived at his Watch Hill cottage.

The annual financial town meeting will be held this (Tuesday) morning.

Seelye's 2-Cent Record Stands. When the late Julius H. Seelye of Amherst college ran for congress in 1874 as an independent candidate he expended only a single postage stamp, or a cent, in the rate of letter postage then was. This money went to carry his letter accepting the nomination. Now it is the record yet holds, despite the fact that the smallest campaign expense account ever placed on record in Wisconsin is enclosed in second class postage. O. W. Armistead of Hudson laid out only three 2-cent postage stamps on letters sent to parties in his county asking to have his nomination papers circulated. The persons so addressed circulated the papers and paid the return postage. Judge Armistead held his position for 16 years, and the people took care of him, as they did of President Seelye in the long ago—Springfield Republican.

Burial was in River Bend cemetery, where Rev. William F. Williams of Christ Episcopal church officiated at the committal service.

The republican town committees will meet again and complete the slate of candidates for town officers to be presented to the caucus to be held this week. It is understood that there will be unanimity in the committee under the majority rule system. If there is content in the caucus it will come from those not in the committee membership.

**STOLE RIDES.**  
Providence Boys Are Now in Bridgeport Jail.

An unusual judgment has been given in the Bridgeport city court Thursday morning in the case of six boys who were caught riding on freight trains Wednesday afternoon. They were sentenced to thirty days in jail. At the expiration of 45 days they will be released in the custody of the probation officer, who will use his discretion in permitting them to leave the city. Providing the boys do not obey the probation officer they will be sent back to jail.

The sentence was meted out to Louis Muehleck, Samuel Goldsmith, Louis Cohen, James Rodgers, Charles Simmons of Providence, R. I., and John Kane of Lowell, Mass. All were bound for New York and were looking for work. They are about 19 years of age.

It is usual to suspend judgment in the train riding cases, but the boys admitted that they had planned this trip, and the court thought that if they deliberately evaded paying their fare over the road they should be punished. One of the boys did not like going to jail and asked for another chance, but he was refused.

**SUNKEN GARDEN**  
Being Arranged for Elizabeth Park, Hartford.

Supt. of Parks George A. Parker and his cohorts, of Hartford, are especially busy at the time trying to take advantage of the weather man's good humor. The most important change in any of the parks is the sunken garden in Elizabeth park.

The basis for the garden existed in the two tiny connected pools, with the fountain and rustic bridge, which lie just to the left of the old entrance to the park on the southeast corner. The main entrance has been for some time a short distance to the north of the old one. Now another entrance, consisting of two footpaths, bordered by flower beds, is being constructed directly opposite the center of the park house.

The new paths will be about five feet broad by some thirty feet long, stretching to an arc from Luther's bay to Elizabeth bay.

Major von Frankenburg, president of the German American club, has placed huge signboards to be placed on the roofs of church towers and high buildings, with a certain code of signals, visible from airplanes aloft, to warn of German ships.

He also suggests that the frontiers of the different European countries shall be marked by the same method and that at night the signals shall be illuminated in such a way as to make them visible. Aeronauts would carry a signal code book, enabling them to decipher the meaning of the signals.

**STORIES OF PLACES.**  
Experts say that for some years to come the diamond field near Luderitz bay in southwestern Africa will continue to yield enormous amounts of small but choice stones. There is but little prospect that any large gems will be found, and stones over even one carat are rare, for the most part. The diamonds are found in an irregular depression of a resolute range about one mile broad by some thirty long, stretching to an arc from Luther's bay to Elizabeth bay.

**The General Demand**  
of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.
